Changes of FGOALS-g2 historical data

At the end of May, 2012, the FGOALS-g2 historical runs on the ESG-node were updated mainly due to the fact that the actual data of the first member, r1i1p1, which also serves as the basis of various RCP experiments, was missingIn the newly published data, actual data of member r1i1p1 are used. Also in these data, five members are provided, however, only the second member (r2i1p1) covers the period from 1900 to 2005, because some data before the year 1900 were removed by accident and have not been recovered. Besides, it should be noted that the sequence of the members of the historical experiment has been changed, and the member of r1i1p1 serves as the basis of all RCP scenario experiments. The following chart is the correspondence between the old and new version.

updated version	corresponding older version	comment
r1i1p1	NONE	basement of RCP
		experiments
r2i1p1	rlilp1	1900-2005
r3i1p1	r3i1p1	
r4i1p1	r4i1p1	
r5i1p1	r2i1p1
